

STRIKE CONDITIONS AFFECT BUILDING

Labor conditions between the master builders and their men still remain unsettled, and during the past week very little building has been done in Norwich and vicinity. The carpenters who since April 4th have been working under protest went out on strike last Tuesday morning, tying up practically all work in their line except a few projects where employers of carpenters agreed to pay their men \$7 1-2 cents per hour. The masons during the same week, after a conference with an international delegate, in which it is understood they were told they had no grounds for a strike, returned to work last Thursday morning after being out since early in April. This, however, somewhat counterbalanced the strike of the carpenters. Contractors are now doing the masonry work that has been held up so that the master builders do not feel so much put out as if both the masons and carpenters were out at once. The carpenters are holding fast to their determination not to accept the arbitrator's decision in a wage adjustment and it is not probable there will be a settlement for a few days at least.

During the past week few applications for permits to build have been received by Fire Marshal Howard L. Statton, and he has granted several permits the applications for which were filed last week. John H. Chaboy is to erect a garage at 38 Dunham street. The building is to be 12x12x12 feet and of frame construction. The walls are to be of concrete with a roof covered with composition roofing. A barn 16x18 is to be erected at 38 Geo. avenue by Joseph Cook. The barn will be of frame construction with a cement foundation and door. This adds to the list of building permits.

For Thin Waists and Sleeveless Gowns

(Tubet Time)
A safe, certain method for ridding the skin of ugly, hairy growths is as follows: Mix a paste with some new-scented talcum and water, apply to hairy surface about a minute, then rub off, wash the skin and the hairs are gone. This is entirely harmless and doesn't require repaving. It is advisable to see that you get genuine talcum, mix fresh as wanted.

of the barn will be in claspboard and the roof will be shingled.

REAL ESTATE SALES AND MORTGAGE LOANS

Norwich had 29 sales of real estate the past week to 14 for the same week a year ago. The mortgage loans for the respective weeks amounted to \$93,200 and \$12,319, respectively.

In New London there were eight sales of realty the past week to six for the same period last year. Loans for the respective weeks amounted to \$27,375 and \$22,190.

NEW LONDON

Work has been started on a cottage to be erected on Riverside avenue by P. S. Smith for himself. It will be of wood, 22x26 feet, with five rooms and the usual improvements. The cost will be \$3,000.

Contractor Lanphear is erecting a garage on Jefferson avenue for William Hansen, 810 Bank street. It will be 20x20, of wood, costing \$480.

Contractor Lanphear is erecting a garage on Stuart street for M. E. Forrester. It will be 18x20 feet, of wood, and will cost \$240.

Contractor Lanphear is making alterations to the frame cottage of L. Liberman at Midway place. Another story is to be added and other changes made. This cost will be \$2,000.

Building Permits

M. E. Forrester, frame garage, Stuart street. Cost \$240.

L. Liberman, alterations to cottage, Midway place. Cost \$2,000.

J. H. Williams, frame garage, Central avenue. Cost \$100.

Parmenter & Leblanc, alterations to balcony, 664 Bank street. Cost \$3,000.

Total number of permits for the week \$5 estimated cost of buildings, \$4,700.

WOODSTOCK

The contract for the extensive alterations to be made to the ancestral home of Hamilton Holt, editor of the New York Independent, known as Bowen Tavern, has been let to the Webster Building Co. of Webster, with the sub-contractors going to local parties.

Misers get more out of the world than they put into it.

STATE MEDIC ASSOCIATION IN HARTFORD THIS WEEK

Governor Lake, Bishop Murray, Winchell Smith, Dr. George Blumer of New Haven, retiring president of the Connecticut State Medical Society and the newly elected president will speak at the annual banquet of the society at Hartford Thursday evening in connection with the 10th annual meeting. The banquet at the Hartford Club will begin at 6 o'clock. The members and guests will be entertained at a smoker at the Hunt Memorial on Wednesday night at 7:30 o'clock. The Travelers Insurance Co. has invited the members of the society at the Hartford hospital and St. Francis hospital on Thursday, the members and guests are invited by Dr. W. N. Thompson, superintendent of the Hartford Retreat, to visit that institution and remain for luncheon. The program for the various functions was arranged by Dr. Walter G. Murphy, Dr. Donald B. Wells and Dr. Patrick McPartland.

Wednesday Schedule

The first meeting of the council will be held at the Hunt Memorial on Wednesday morning at 8:45 o'clock. The first meeting of the house of delegates will be held at 9:15 o'clock on the same morning. The program of the meeting for Wednesday afternoon will begin at 1 o'clock and will be as follows:

Reception of visiting delegates; "Helping the Internist," Dr. Daniel C. Patterson, Bridgeport, discussion by Dr. E. A. Goldman of Boston and Dr. William E. Verd of New Haven; "Endocrinology in Gynecology," a review of reviews, Dr. Oliver T. Osborn of New Haven and Dr. Jesse W. Fisher of Middletown; "Treatment of Bolempas," Dr. H. Morse of New Haven, and Dr. Luther K. Muselman of New Haven, discussion by Dr. James H. Miller of Hartford; "Ruptured Testes in Everyday Practice," Dr. Charles W. Gardner of Bridgeport, discussion by Dr. Wilder Thilston of New Haven; "Duodenal Ulcer Factors Determining Its Rational Treatment," Dr. C. Brewster Brainerd, Hartford, discussion by Dr. Louis M. Gomperts of New Haven and Dr. Alfred M. Rowley of Hartford; "Hemorrhagic Osteomyelitis," Dr. Ernest H. Arnold, New Haven, discussion by Dr. George W. Hawley of Bridgeport and Dr. Paul P. Swift of Hartford.

Thursday's Program

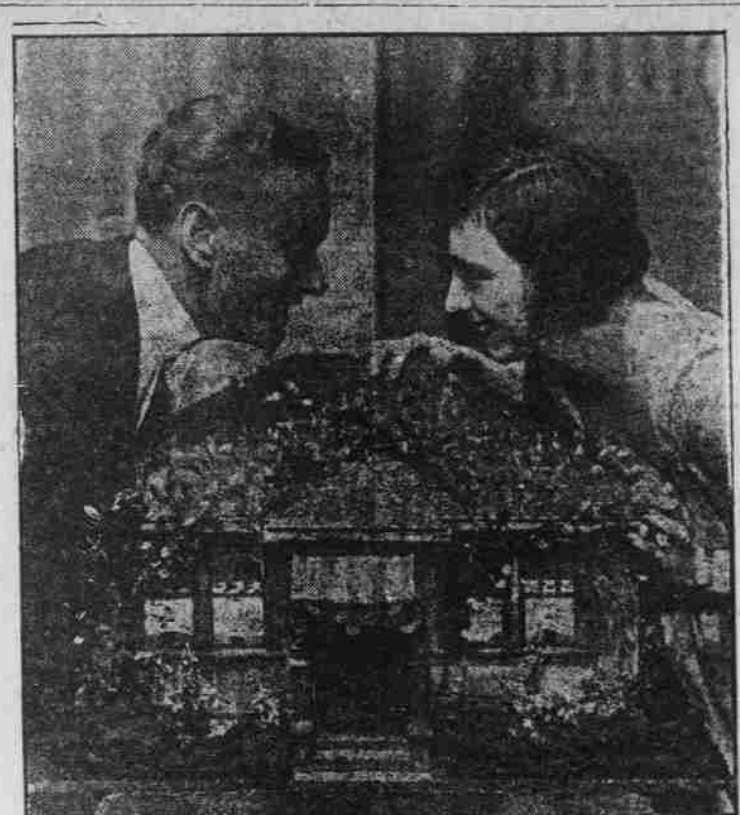

The following will be the program for Thursday afternoon: President's address, Dr. George Blumer of New Haven; "Some Aspects of Lues in Its Relation to Psychoses and Psycho-Neuroses," Dr. Frank H. Barnes, Stamford, discussion by

Dr. Max Mailhouse of New Haven and Dr. C. Floyd Hayland of Middletown; "Tuberculous, a plea for early diagnosis and Rational Treatment," Dr. Henry F. Stoll, Hartford, discussion by Dr. William McDonald, Jr. of New Haven and Dr. John Lynch of Bridgeport; "Abolition of Venereal Disease," Dr. George Walker of Baltimore, discussion by Dr. Thomas N. Hepburn of Hartford; "Epidemic Encephalitis," Dr. Paul Waterman, Hartford, discussion by Dr. Isaac W. Kingsbury of Hartford and Dr. Stanley H. Osborn of the state health department; "Brain Injuries," Dr. Samuel G. Harvey, New Haven, discussion by Dr. J. Gilderleeve Jarvis of Hartford and Dr. William F. Verd of New Haven.

The clinical session at the Hartford hospital will be on Thursday morning from 8:30 to 11:30 o'clock, as follows: "Surgical Cases Under Operation," Dr. A. M. Rowley; "Disease of Heart Demonstrated with Electro-Cardiograph," Dr. R. S. Starr; "Observations on Diagnosis by the Roentgen Ray," Dr. Heublein and Roberts; "Symptomatic Renal Colic," Dr. T. N. Hepburn; "Cases Under Observation and Treatment by Radium," Dr. E. T. Smith; "Illustrative Cases on Diseases of Children," Dr. C. A. Goodrich; Observations from the Pathological Reports of the Hartford Hospital," Dr. J. C. Rowley; "Medical Cases of Interest," Dr. W. R. Steiner, L. R. Cochran and E. K. Root.

Clinical Session

The clinical session at St. Francis hospital will be from 9 to 11 o'clock and there will be an operative clinic at 1 o'clock. Surgical clinic, Dr. Sullivan, Clifton and McPartland; "Operative Treatment of Empyema Without Drainage," Cholecystectomy Without Drainage," Dr. Taft; "Blood Transfusion," Dr. McPartland; "Rheumatic Fever Treated Intravenously With Sodium Salicylate and Sodium Iodide; The Determination of Urea, Nitrogen, Creatinine and Uric Acid as Factors in Kidney Lesions," Dr. Crowley, Welch, Landry, gynecological clinic, Dr. Wolff and Osborn; eye, ear, nose and throat clinic, sinus thrombosis, technique in otolaryngology, bronchoscopy and tonsillectomy under local anesthesia, Dr. McClellan, Gallivan and Reardon; orthopedic clinic demonstration of plaster work, splints and modeling as applied to orthopedics, Dr. Root; cases of spastic paralysis treated by operation, Dr. Pierson; infantile paralysis, Dr. O'Brien; demonstration of severe fractures, Dr. Yergason; cystoscopic clinic, demonstration of cases, Dr. Boyle; X-ray department technique of application of radium in malignancy, Dr. Van Strander; pediatric clinic cases of spleno-

Edna Pendleton and Bert Gardner, with "Mary" Geo. M. Cohan's superior musical comedy success, which plays a return engagement at the Davis Theatre, Tuesday night, May 17th.

myelogenous leukemia, Dr. Locke; neurological clinic, case of injury of spinal cord, Dr. Miller; exhibit in the record and "follow-up" system department and the "admirable" of the dist. kitchen laboratory department, pathological demonstrations, Dr. Russ.

The county delegates to the annual meeting include the following: New London County: W. H. Gray, H. H. Heyer, A. C. Freeman; Tolland county: W. H. Bean; Windham county: A. D. March, R. C. Payne.

STATE WILL HAVE TO BUILD NANTIC STOREHOUSES

The necessity of erecting huge steel storehouses at Nanticoke for the housing of large quantities of military equipment for the Connecticut National Guard at a cost of approximately \$100,000 is obligatory, according to an announcement made by Col. Morris B. Payne of the military affairs committee of the Connecticut legislature. The saving to the state is brought about by a ruling of the war department which relieves Connecticut of an obligation to provide accommodations for surplus military equipment valued at approximately \$11,250,000.

According to notification from the chief of the militia bureau, only enough material will be sent into Connecticut to equip the personnel of the national guard, which being about 25 per cent. of the \$15,000,000 equipment originally intended for this state, will have a value of about \$3,750,000.

This obviates the necessity of securing an appropriation of over \$100,000 from the legislature for the erection of huge steel storehouses at Nanticoke, in which to house the great quantity of equipment. The total cost to the state for the housing of the material, Col. Payne estimated, will be about \$84,000 needed to strengthen the state armories along the coast for the storage of heavy artillery, as it is anticipated that all of the equipment can be taken care of in existing armories.

The reduction means that Connecticut will receive six of the massive French G. P. P. 155 millimeter guns weighing nearly fifteen tons each and having a shooting range of ten miles. The first gun was to have been recruited up to its full strength, of 60 officers and 1,081 enlisted men, and has been ordered to Camp Devens for training from June 12 to 24, inclusive.

Colonel Payne announced that the regiment under his command, which has been known as the First Coast Artillery, has now been officially designated the 192nd Coast Artillery (155 mm gun). The regiment has just been recruited up to its full strength, of 60 officers and 1,081 enlisted men, and has been ordered to Camp Devens for training from June 12 to 24, inclusive.

When a man lectures on prohibition he has a dry subject.

A Great Discovery

Dr. Leonhardt, a western physician, found the cause of Piles to be internal. His prescription, Hem-Roid, a harmless tablet, has an almost unbelievable record for quick, safe and lasting relief. Low & Osgood Co. sells it with money-back guarantee.

Take Evans Triple Phosphates With Meals Gain Several Pounds of Solid Stay-There Flesh

In one month's time EVANS' TRIPLE PHOSPHATES will add several pounds of solid, red blooded flesh and change your weak, run-down, nervous, tired body into a strong, vigorous, robust one, or money back. Of course, medical men are surprised, and many are still unbelievers, but the fact is evident to every up-to-date pharmacist that Evans' Triple Phosphates will produce flesh without violent methods, face creams, daily massage or beauty torture. In order to assimilate the nourishing food that people daily take into the body and turn it into healthy, red blood corpuscles, the nerves that control the process of digestion and assimilation must be put in first class shape, and that is gain weight. One of the first things Evans' Triple Phosphates does is to give the stomach a small tablet form; a ten days' treatment in each box, and one month's treatment is granted to increase your weight to least several pounds, and in ten days make you feel like a new being, full of ambition, vigor and a desire to accomplish things. Less & Osgood and all good druggists have agreed to supply Evans' Triple Phosphates and guarantee it to do just what is claimed for it, or money refunded. Even though Evans' Triple Phosphates works wonders in all cases of nervous, digestive and blood troubles, don't take it unless you really desire to put on flesh, gain weight.

Beginning Monday, May 16th, the three National banks and the three Savings banks of this city will return to their regular hours of opening and closing, that were in force previous to May 2, 1921.

ed in each of the state armories in Stamford, Greenwich, Norwalk, Danbury, New London and Norwich and a service battery in that at Danielson. To make this possible, the buildings will have to be strengthened, which would involve an estimated cost of \$3,000 in Stamford, \$12,000 in Greenwich, Norwalk and New London and \$10,000 in Danielson.

In the new allotment to Connecticut will be, in addition to the six heavy 155 mm. guns 15 heavy tractors, 80 large automobile trucks, about 20 other heavy tractors, 80 large motorcycles with sidecars not to mention arms and munitions for other branches of the service, of which equipment to the value of about \$1,500,000 has already been delivered.

Colonel Payne announced that the regiment under his command, which has been known as the First Coast Artillery, has now been officially designated the 192nd Coast Artillery (155 mm gun). The regiment has just been recruited up to its full strength, of 60 officers and 1,081 enlisted men, and has been ordered to Camp Devens for training from June 12 to 24, inclusive.

When a man lectures on prohibition he has a dry subject.

QUIT TOBACCO

So easy to drop Cigarette, Cigar, or Chewing habit

No-To-Bac has helped thousands to break the costly, nerve-shattering tobacco habit. Whenever you have a longing for a smoke or chew, just place a harmless No-To-Bac tablet in your mouth instead. All desire stops. Shortly the habit is completely broken, and you are better off mentally, physically, financially. It's so easy, so simple. Get a box of No-To-Bac and if it doesn't release you from all craving for tobacco in any form, your druggist will refund your money without question.

Between some men and women, the only apparent difference is that women will take water.

60th Anniversary Bon Ton Corset Week Six Days May 16 to 21

YOU can help yourself by helping us this week to celebrate the big 60th ANNIVERSARY BON TON Corset Week of the Royal Worcester Corset Company of Worcester, Massachusetts, who, this week are rounding out 60 years in business!

Just think what this means to you—a company making wonderfully perfect corsets for over 60 years, and you can buy one now at a reasonable price and take full advantage of all this great skill and wide experience in corset making!

A BON TON corset will absolutely mold your figure to lines of real beauty and grace.

It is Free

At your store this week

This 10-Day Tube of Pepsodent. Present the coupon to any dealer named below.

Make this delightful test. Watch the quick effects—see the change in a week. Then you will realize what this new way means to you and yours.

Each use of Pepsodent multiplies the salivary flow. That is Nature's great tooth-protecting agent. It multiplies the starch digestant in the saliva. That is there to digest starch deposits which may otherwise form acids.

It multiplies the alkalinity of the saliva. That is Nature's neutralizer for the acids which cause decay.

Five important effects come from every application. And modern authorities deem all of them essential.

Not for women only

The most conspicuous effect is glistening teeth. Countless women employ it largely on that account. Few things add so much to beauty.

But men also want white teeth. Men who smoke find that teeth discolor quickly, due to stains in the film.

Pepsodent means more than this, however. It means cleaner, safer teeth. Children need it even more than others. Their teeth are easily attacked, and very few escape. Dentists advise that Pepsodent be used every day from the time the first tooth appears.

To all it means a new conception of clean, well-protected teeth.

Present the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear. Watch the other good effects.

This test will prove a delightful revelation. To you and yours it may bring life-long benefits. Every day you wait may mean new damage. Cut out the coupon now. Present it this week at your store.

10-DAY TUBE FREE

Present this coupon, with your name and address filled in, to any store named. It is good for a 10-Day Tube of Pepsodent.

Your Name.....

Address.....

Out-of-town residents should mail this coupon to The Pepsodent Company, 1104 So. Wabash Avenue, Chicago, and the tube will be sent by mail.

Only one tube to a family.

A Surprise Tonight

If you will try this way to prettier teeth

This test will surprise and delight you. The results are so quick, so pleasing, so conspicuous.

Millions have already made it. The glistening teeth seen everywhere now show some benefits it brings.

Go get this free tube from your dealer. Use it and watch the effects. It will open up to you and yours a new era in teeth cleaning.

Why prettier teeth?

This method brings whiter, prettier teeth because it fights the film. Your teeth are now covered with a viscous coat. Peel it with your tongue. It clings to teeth, enters crevices and stays.

Old brushing methods do not remove it all. Enough remains to make the teeth both dingy and unsafe.

That is why teeth look cloudy. The film-coats absorb stains. Film also causes most tooth troubles. And, under old methods, all those troubles have been constantly increasing.

How film ruins teeth

Film dims the teeth's luster. It also forms the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Many other serious troubles, local and internal, are now traced to them.

Countless people find that teeth brushed daily still discolor and decay. The main reason lies in that film.

Now we daily fight it

Dental science, after long research, has found ways to fight that film. Able authorities have proved their efficiency. Now leading dentists everywhere advise their daily use.

These methods are combined in a modern dentifrice called Pepsodent. Millions now employ it, largely by dental advice. The use is fast spreading the world over among those who know.

That is the tooth paste we ask you to try. Watch its effects on the film. See how your teeth improve. Then let your own good sense decide between old methods and the new.

Three other essentials

Modern science also requires three other effects from a tooth paste. The old methods did not bring them. Pepsodent brings them all.

Pepsodent

REG. U.S. PAT. OFF. The New-Day Dentifrice Endorsed by authorities, advised by leading dentists everywhere, and supplied by all druggists in the large tubes.
